

HOW TO Turn on auto-arrival

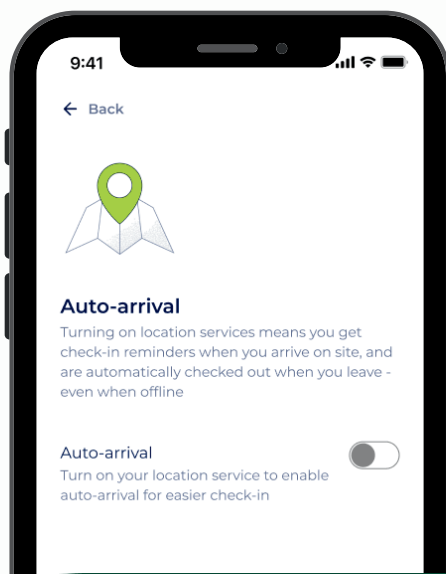

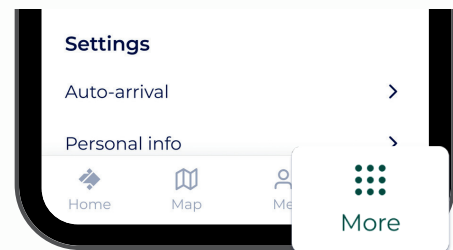

What is auto-arrival?

Auto-arrival registers when you enter a property and sends you a notification to check-in. You'll get automatically checked-out when you leave at the end of the day

How do I turn it on?

- Go to the **More** tab on your app
- Under **Settings** > click on **Auto-Arrival**

Click the toggle on. When Auto-arrival is on, the toggle will be **green**

Make sure that your location services are set to 'Allow all the time' for Onside, so that you can get check-in reminders without needing to have your app open
